KETTLER

ALSO IN TABLE TENNIS THE NO.1 LEISURE BRAND

PREMIUM QUALITY – MADE IN GERMANY

As an authentic manufacturer's brand, when we speak about quality, we know exactly what we are talking about. And with the knowledge and the manufacturing expertise of our own production department, we guarantee premium quality – Made in Germany.

For decades now we have been inspiring ambitious recreational athletes across the world with sophisticated features and the highest quality materials – and not least with our outstanding value for money.

PROVEN SAFETY

KETTLER table tennis tables fulfil the highest safety requirements and are approved by the German TÜV. The centre guide safety folding mechanism features the Dual Interlock System: a double locking system preventing accidental opening and closing.

The folded up table features an especially low centre of gravity so that it can be safely moved. Solid wheels with locking system round off the safety features.

PRIZE-WINNING INNOVATIONS

Our products have been awarded the PLUS X Award for their innovations. The integrated holder for storing bats, the automatic pre-tensioning of the net, and our weatherproof ALU-TEC composite tops are just a few of the many unique features of our tables.

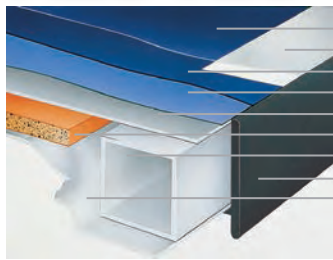

GUARANTEED WEATHERPROOF

The high-tech aluminium honeycomb structure, which forms the underside of the ALU-TEC composite top, distinguishes KETTLER tables from the rest.

KETTLER is the only manufacturer to produce table tennis tables with an „aluminium underbody skidplate“. The complex multi-layer construction guarantees both complete resistance to weathering and extremely good ball control. ALU-TEC represents high durability and great longevity, in almost every climatic condition. Given proper use, we provide a 5-year-guarantee on the composite top.

ALU-TEC

- weatherproof
- UV-resistant finish
- silk-screened lines
- top pigment coat
- base pigment coat
- aluminium top sheet
- resin-treated chip board
- aluminium square frame
- profile frame
- aluminium underside

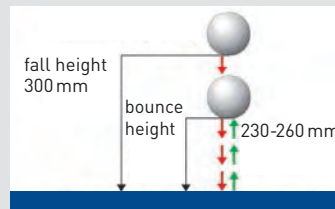

Multi-layer construction

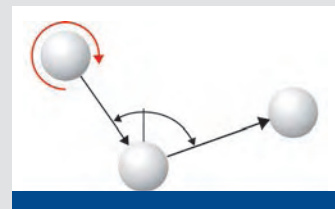

MORE FUN TO PLAY

Our long-lasting anti-glare playing surface featuring UV-protection and certified bounce qualities with excellent ball control, makes playing table tennis even more fun, for professionals and beginners.

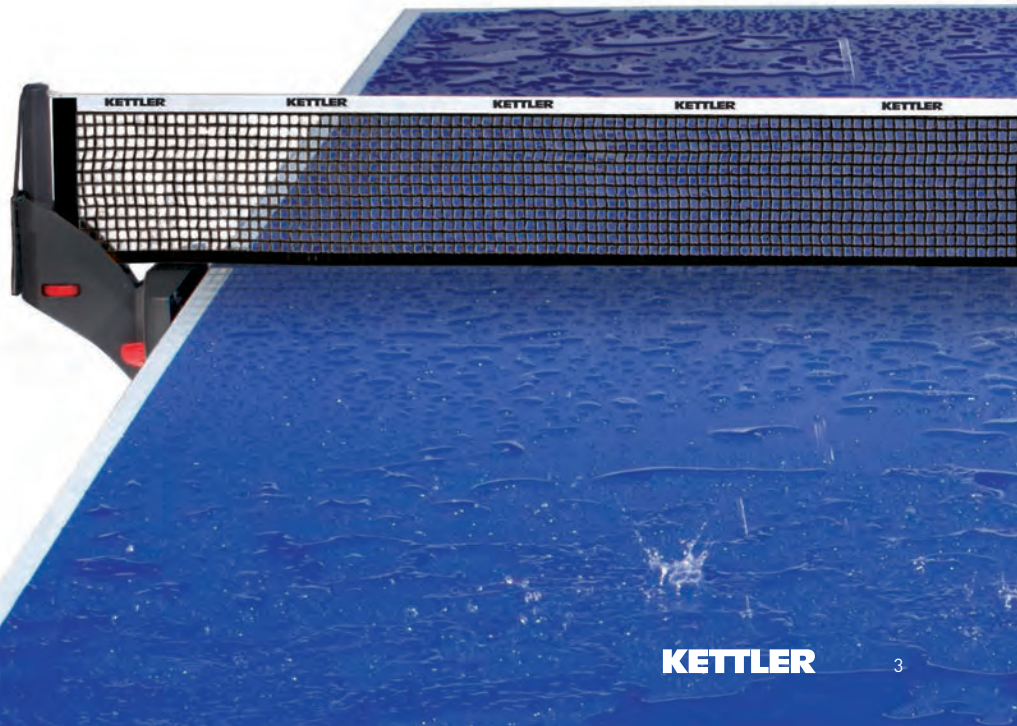

The table's practical playback position allows you to train by yourself.

ball rebound (complies with class A)

ACCESSORIES

new polymer rubber with smooth surface for the best playing characteristics

weight-optimised grip with good balance and great stability

softtouch ergo grip for comfortable handling

OUTDOOR

incl. balls 07091-100
w/o balls* 07090-000

- set, including 2 weatherproof outdoor table tennis bats, also available incl. 3 outdoors-balls (Ø 40 mm)
- bats made from weatherproof 2 component high-performance plastic
- blue polymer rubber with smooth surface for excellent ball control speed: 60 %, spin: 50 %, control: 70 %
- concave softtouch grip in ergo grip design for comfortable handling and playing comfort
- level A: maximum control and good playing characteristics for beginners and players of all ages

LEVEL ▶ **A** ALLROUND

CHAMP

incl. balls 07091-700
w/o balls* 07090-700

- set, comprising 2 tournament table tennis bats with high-performance rubbers, also available incl. 3 premium balls (3-star/40 mm)
- ITTF-approved pimple in rubber, red/black, sponge thickness 1.5mm, speed: 80%, spin: 70%, control: 60%
- blade made from MULTI PLYWOOD 5-layer veneer for maximum feel for the ball and speed
- concave handle in ERGO GRIP design for correct handling
- vibration-absorbing FOAM CUSHION GRIP ensures a clean response from the ball contact, even at high speed
- level S: good control, high speed characteristics for experienced players

ITTF-APPROVED

LEVEL ▶ **S** SPORTS

MATCH

incl. balls 07091-500
w/o balls* 07090-500

- set, comprising 2 table tennis bats with high-performance rubbers, also available incl. 3 training balls (1-star/40 mm)
- blade made from MULTI PLYWOOD 5-layer veneer for maximum feel for the ball and speed
- ITTF-approved pimple in rubber, red/black, sponge thickness 1.5mm, speed: 50%, spin: 40%, control: 90%
- concave handle in ERGO GRIP design for correct handling
- level A: maximum control, good playing characteristics for beginners and players of all ages
