

Butterfly R2000 Polymer Concrete Table

 Butterfly

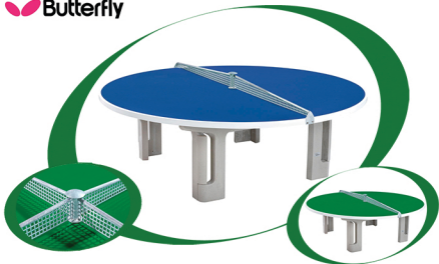

Table surface available in:  Blue  Green  Granite Green

Please note: Star Ratings for concrete tables are based on direct comparisons with other concrete models and bear no relation to ratings given to 'normal' tables! The Butterfly R2000 Polymer Concrete Round table tennis table has a 25mm thick steel clad, reinforced polymer concrete playing surface and a polymer concrete base with anchor points that allow you to secure it to the ground. It is supplied with a galvanised steel net that can be fitted to divide the top in two or four (the latter allows for two singles games to be played simultaneously).
Butterfly recommend their concrete table tennis tables for public play areas, schools and holiday parks.

Circular table tennis table: (Diameter) 240cm
Weight: 500kg

5 year guarantee on table only
