

## Cornilleau Pro 540M Crossover Outdoor

Table surface available in:

This is a fantastic choice for schools, colleges, holiday parks and businesses seeking a strong, yet foldable weatherproof table tennis table. With its ten year warranty you can rest assured it will withstand all the rain, frost, snow and sunshine the UK weather system can throw at it. It can also survive the extensive, frequent and boisterous use it gets in the average school playground. The padded corners are invaluable where there are young children playing and the highly durable steel net makes the table even more robust, long lasting and virtually maintenance free. This model features the Cornilleau DSI folding system, the **quickest** and safest on the market. The 540m pro outdoor also benefits from a full-mat finish which reduces glare on the playing surface by 10 times plus it has brakes on the wheels. Please call us if you require further information or advice on this or any other table tennis table.

Value	Strength	Bounce	Folding	Weatherproofing
★★★★★	★★★★★	★★★★☆	★★★★★	★★★★★
