

Cornilleau Performance 700X Outdoor

Table surface available in:

The Cornilleau Performance 700X Crossover benefits from a full Mat-Top finish (which reduces the glare on the table-top by ten times), it has a 8mm resin black playing surface which produces a bounce equal to an indoor 22mm table top. It has excellent weatherproofing, a very clever net with height and tension adjustment which automatically folds away as the table closes and re-appears when you unfold it. This protects the posts from being broken by footballs etc. It has a neat, tidy storage position and benefits from the industry's quickest and safest folding system. The Performance 700X Crossover also comes with a ten-year warranty. The legs are extremely strong and it has very good quality wheels along with wheel brakes. It has a storage area for bats and balls, padded corners, leg levellers, a point scorer and ball dispenser at either end and 2 retractable cup holders. It's also wheelchair friendly.
