

Cornilleau Performance 500X Outdoor

Table surface available in:

The Cornilleau Performance 500X benefits from a 6mm Resin Mat-Top finish (this reduces glare by ten times). It has excellent weatherproofing, a very clever net with height and tension adjustment which automatically folds away as the table closes and re-appears when you unfold it. This protects the posts from being broken by a football etc. It has a neat, tidy storage position and benefits from the industry's quickest and safest folding system. The Performance 500X benefits from a ten-year table warranty. The legs are strong and it has good quality wheels (two of which have brakes). It also has a storage area for bats and balls, padded corners and leg levers.
