

Kettler Spin 11 Indoor Table

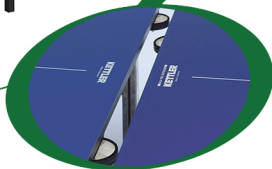

Table surface available in:

Blue

The Kettler Spin 11 offers an excellent level of play and is very robust. It can be folded for compact storage and has two hidden wheels on the underside of each table half. The benefits of this style of table are that they arrive 95% pre-assembled, are very strong and take up minimal storage space. However it is more awkward to fold and manoeuvre than a rollaway table.
