

# Space Saver 22

Indoor Butterfly Table Tennis Table

The Space Saver 22 is a strong, ITTF approved competition table with a good quality bounce. Once you've removed the net and post set the table folds away quickly in one motion as both halves fold in unison (although this means you lose the playback position offered by most other models). It's very narrow when stored which makes it popular in clubs where multiple tables are required but storage space is at a premium. Please note that the net and post set is not supplied with this table and needs to be purchased separately.

Assembly: Ready assembled
