

PARK

BUILT TO LAST

this is an ultra-resistant table designed for use in open-access playgrounds. It has an excellent playing performance and is completely weatherproof.

The PARK table is also shock resistant, fire resistant, graffiti resistant and can withstand a weight of up to 1600 kg on the playing surface making it the most resistant table on the market. It is ideal for use in a public park, beside a playground or in a campsite.

Complies with the European standard on free access multi-sports equipment (NF-EN 15312), the Park table can be installed and used in complete safety in unattended places.
