Cornilleau Park Static Outdoor

-  Burn Resistant
-  Easy Cleaning
-  Shock Resistant
-  Weather Resistant
-  Weight Tested

Table surface available in:
● Grey

Cornilleau's Park table was designed as an alternative to the 'old fashioned' concrete tables. It offers a very high level of play and is completely weatherproof. The top is anti-glare and the table boasts a ten-year warranty. Intended for completely unsupervised areas, the Cornilleau Park table can withstand extremely boisterous treatment. It's 'level M2' burn resistant and some graffiti can be removed using Acetone. Remarkably the table can support 1600 kilos (20 average sized adults).

Table size: 275cm (l) x 153cm (w) x 77cm (h) (9' x 5' x 2'6")
Minimum play area: 5.1m (l) x 3.3m (w) (17' x 11'), guideline only
Weight: 163kg (Weight with sand trays: 400kg)

- Suitable for outdoor use
- 9mm resin playing surface with MATTOP finish
- Rounded corners for added safety
- Legs: Strong 90mm galvanised steel
- Frame: Corrosion / scratch-resistant steel 80mm x 45mm
- Environment: No-toxic – Non-flammable – 100% recyclable
- Fixed steel net – 3mm galvanised steel finished with epoxy paint

The standard table can either be bolted to a concrete base (fixings are supplied) or left free-standing. However, if you are placing it on grass there is an optional ground anchor kit available. Alternatively you can choose the sand tray option where the weight of the table is increased from 163kg to 400kg (or again leave it free-standing).

10 year guarantee
