GB Assembly Instructions

Before assembling or using the table-tennis table, please read the following instructions carefully. They contain important information for use and maintenance of the equipment as well as for your personal safety. Keep these instructions in a safe place for maintenance purposes or for ordering spare parts.

All KETTLER products are designed in accordance with the latest safety regulations and undergo a constant process of quality control during manufacturing. The knowledge gained in this process is used to constantly improve and develop our products. In order to offer our customers the very best in product quality, we reserve the right to make technical changes at any time. In spite of this, should you have any cause for complaint, please contact your KETTLER dealer.

Note on Safety

- The table-tennis table should be used only for its intended purpose, i.e. for playing with suitable table-tennis bats and balls.
- All other uses are prohibited and may be dangerous. The manufacturer cannot be held liable for damage or injury caused by improper use of the table.
- Damaged or worn components may endanger your safety or shorten the lifespan of the table-tennis table. Replace worn or damaged components immediately and remove the table from use until this has been done. Use only spare parts manufactured by KETTLER.
- The table-tennis table complies with all safety regulations. Incorrect repairs, alterations to the design (removal of original parts, addition of other components etc.) may endanger the safety of the user.
- Instruct other persons (in particular children) using the table in its correct use, and draw their attention to any potential source of danger, especially when setting up or dismantling the table.
- **Caution:** While assembly of the product keep off children's reach (Choking hazard - contains small parts).
- When setting up or dismantling the table, stay clear of its folding radius.
- When folded up, the table-tennis table presents a large surface to the wind. For this reason, ensure that it is stored in a sheltered position.
- The table-tennis table may be pushed only into the transport position because there is otherwise a danger of injury.
- The unit complies with the standard EN 14468-1:2004.
- Depending on frequency of use, check all screws, bolts etc. regularly to ensure that they are in good condition.
- **Caution:** While assembly of the product keep off children's reach (Choking hazard - contains small parts).
- In case of enquiry, please contact your KETTLER dealer.

Handling the equipment

- Do not use the table-tennis table until it has been fully and correctly assembled and checked.
- Ensure that table-tennis tables which are not weatherproof are not exposed to dampness or rain. Keep them well away from direct sources of heat. Should the surface become warped, lay the table on a level surface for a few days.
- Set the table up on a level surface.
- Do not cover it with plastic foil, under which condensation may form. We recommend the weatherproof KETTLER tarpaulin, art. no. 7032-300.
- For practising without a partner, the table halves can be folded up singly.
- For more information on the sport of table-tennis, you are referred to the specialist literature on the subject.
- Do not use corrosive or abrasive materials to clean the equipment. Ensure that such materials are not allowed to pollute the environment. In most cases, a slightly dampened cloth is sufficient.
- **Waste Disposal:** KETTLER products are recyclable. At the end of its useful life please dispose of this article correctly and safely (local refuse sites).

GB Assembly Instructions

Instructions for Assembly

- The equipment must be assembled with due care by **two adult persons**.
- Ensure that you have received all the parts required (see check list) and that they are undamaged. Should you have any cause for complaint, please contact your KETTLER dealer.
- Before assembling the equipment, study the drawings carefully and carry out the operations in the order shown by the diagrams. The correct sequence is given in capital letters.
- Please note that there is **always** a danger of injury when working with tools or doing manual work. Therefore please be careful when assembling this machine.
- Ensure that your working area is free of possible sources of danger, for example don't leave any tools lying around. Always dispose packaging material in such a way that it may not cause any danger. There is always a **risk of suffocation** if children play with plastic bags!

List of spare parts

When ordering spare parts, always state the full item number, spare-part number, the quantity required and the S/N of the product (see spare parts drawing).

Example order: Art. no. 07176-650 / spare-part no. 94130003 / 2 pieces / S/N.....

Important: spare part prices do not include fastening material; if fastening material (bolts, nuts, washers etc.) is required, this should be clearly stated on the order by adding the words **„with fastening material“**.

- The fastening material required for each assembly step is shown in the diagram inset. Use the fastening material exactly as instructed.
- Bolt all the parts together loosely at first, and check that they have been assembled correctly. Tighten the locknuts by hand until resistance is felt, then **use spanner to finally tighten nuts completely against resistance (locking device)**. Then check that all screw connections have been tightened firmly. **Attention:** once locknuts have been unscrewed they no longer function correctly (the locking device is destroyed), and must be replaced.
- For technical reasons, we reserve the right to carry out preliminary assembly work (e.g. addition of tubing plugs).
- Please keep original packaging of this article, so that it may be used for transport at a later date, if necessary. Goods may **only** be returned after prior arrangement and in (internal) packaging, which is safe for transportation, in the original box if possible. It is important to provide a detailed defect description / damage report!

- (D) A:** Setzen Sie nun eine Plattenhälfte auf. Sichern Sie die Plattenhälfte für die folgenden Montageschritte unbedingt gegen Abrutschen und/oder Umkippen! Lassen Sie von einer zweiten Person auf jeder Seite die Schubstrebe und die Tragrahmenstrebe auf das letzte Verbindungsrohr aufschieben.
B: Die Streben des Tragrahmens müssen hierbei ein wenig zur Seite gebogen werden; gehen Sie hierbei vorsichtig vor!
C: Das Verbindungsrohr wird nun mit den Seitenteilen verschraubt.
- (GB) A:** Position one of the table halves and ensure that it cannot slip or tilt over. Ask another person to attach the push bar and the support-frame brace to the last connecting bar.
B: To do this, the braces for the frame must be bent slightly to the side. Proceed with care when doing this.
C: The connecting bar is now bolted to the side elements.
- (F) A:** Poser un plateau. Il est absolument nécessaire de sécuriser les plateaux pour les opérations de montage qui suivront, afin qu'ils ne puissent ni glisser ni se renverser. Demander à une autre personne de glisser de chaque côté l'entretoise et la jambe de force du cadre porteur sur le dernier tube de jonction.
B: Pour cela les jambes de forces du cadre porteur doivent être pliées un peu de côté; pratiquer là avec précaution.
C: Visser ensuite le tube de jonction aux pièces de côté.
- (NL) A:** Stel een bladhalf op. Blokkeer deze bladhalf voor het volgende deel van de montage tegen wegglijden en/of kantelen. Laat een volwassene aan elke zijde de schuifstang en het draagframe over de laatste verbindingsbuis schuiven.
B: De stangen van het draagframe moeten hierbij aan de kant

enigszins gebogen worden; ga hierbij voorzichtig te werk!

C: De verbindingsbuis moet nu aan de zijdelen worden vastgeschroefd.

- (E) A:** Ponga la mitad de la plancha. ¡Asegure la mitad de la plancha para los próximos pasos de montaje contra deslizamiento y/o vuelco! Deje que una segunda persona empuje a cada lado el puntal de empuje y el puntal del marco en el último tubo de unión.
B: Los puntales del marco soporte tienen que ser ligeramente doblados; ¡ejecute este proceso con cuidado!
C: El tubo de unión es atornillado con las partes laterales.
- (I) A:** Dispore un semipiano. Assicurarsi che il semipiano sia fissato bene, in modo da non scivolare o ribaltarsi durante le fasi successive di montaggio! Da una seconda persona far posizionare i sostegni scorrevoli su ciascun lato e il sostegno del telaio portante sull'ultimo tubolare di collegamento.
B: A questo proposito è necessario piegare leggermente verso il lato i montanti della staffa di supporto; procedere con cautela!
C: Il tubolare di collegamento adesso avvitato con i componenti laterali.
- (PL) A:** Po jednej stronie ułożyć połówkę płyty. Dla następnych operacji montażowych należy koniecznie zabezpieczyć połówkę płyty przed ześlizgnięciem się i/lub przewróceniem się! Poprosić drugą osobę o nasunięcie po obu stronach popychaczy ukośnych i podpór ukośnych ramy na ostatnią rurę łączącą.
B: Poprzeczki pałką podporowego muszą zostać przy tym niezaczepione rozgięte na zewnątrz. Zachować przy tym ostrożność!
C: ury łącząca skręcona zostaje teraz z częściami bocznymi.

- D** **A:** Verschrauben Sie die linke und rechte Schubstrebe mit dem Tragrahmen.
B: Verschrauben Sie die Standsicherung mit dem Tragrahmen.
- GB** **A:** Bolt the left-hand and right-hand push bar to the support frame.
B: Bolt the lock to the frame.
- F** **A:** Visser la jambe de force de gauche et droite au cadre porteur.
B: Visser au cadre porteur avec stabilisation au renversement.
- NL** **A:** Schroef de linker en rechter schuifstang op het draagframe vast.
B: Schroef de standbeveiliging op het draagframe vast.
- E** **A:** Atornille el puntal de empuje izquierdo y derecho con el marco soporte.
B: Atornille el palanca de la estabilidad con el marco soporte.
- I** **A:** Avvitare al telaio portante il sostegno scorrevole sinistro e destra.
B: Avvitare al telaio portante al dispositivo stabilizzatore.
- PL** **A:** Przykręcić lewy i prawy zastrzał przesuwany do ramy nośnej.
B: Przykręcić zabezpieczenie postojowe do ramy nośnej.

(A). Nacisnąć dźwigngóry (B) i podnieść sku w początkowej fa- ciec półówki płyty do ieczenie transportowe

D Drücken Sie die linke Kippsicherung und legen Sie den Feststellknebel um (A). Anschließend die Platte mit einer Hand festhalten, rechte Kippsicherung drücken (B) und Platte langsam herunterklappen (C) (Platte unter keinen Umständen einfach fallen lassen!).

GB Press the left-hand tip lock and turn the locking toggle into position (A). Hold the table firmly with one hand, press the right-hand lock (B) and lower the table-half slowly into position (C). Never allow it to drop down!

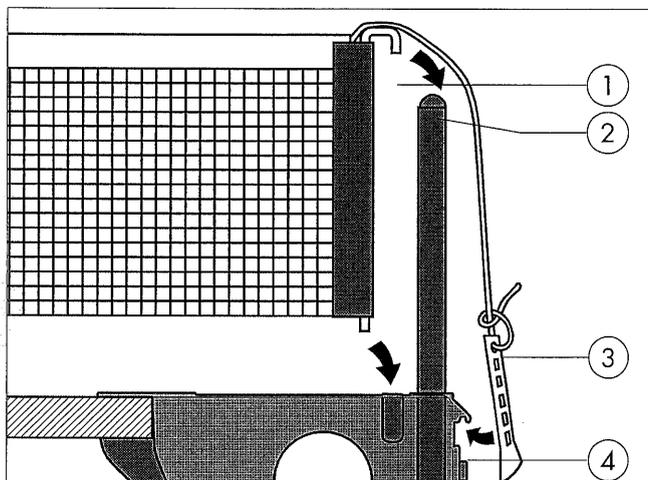

F Appuyer sur la sécurité de basculement de gauche et inverser la manette de fixation (A). Tenir ensuite le plateau d'une main, appuyer sur la sécurité de basculement de droite (B) et laisser descendre lentement le plateau (C) (en aucun cas on ne pourra le laisser tout simplement tomber).

NL Druk de linker kiepvergrendeling in en haal de vergrendelingsknop naar beneden (A). Houd het blad dan met een hand vast, druk op de rechter kiepvergrendeling (B) en klap het blad langzaam naar beneden (C) (laat het blad in geen geval zomaar vallen!).

E Presione el seguro izquierdo y vuelque la manilla de fijación (A). Sujete a continuación la plancha con una mano y presione el seguro derecho contra vuelco (B). Baje lentamente la plancha (C) (¡no deje caer la plancha por ningún motivo!).

I Premiere il pulsante antiribaltamento sinistro e abbassare la levetta di fissaggio (A). Sostenendo il piano con una mano, premere il pulsante antiribaltamento destro (B) e abbassare lentamente il piano stesso (C) (per nessun motivo lasciare il piano in caduta libera!).

PL Nacisnąć lewe zabezpieczenie przed przewróceniem się i przestawić dźwignię blokującą (A). Następnie przytrzymać płytę jedną ręką (B), nacisnąć zabezpieczenie przed przewróceniem się po prawej stronie i powoli opuścić płytę (C) (pod żadnym pozorem nie pozwolić płycie opaść pod własnym ciężarem!).

D Montage des Netzhalters

- ① Netzstange durch seitliche Netzkante schieben.
- ② Netzstange in Aussparungen am Netzhalter einstecken.
- ③ Spannfaden mit Kunststoffflasche verknoten.
- ④ Spannfaden über obere Einkerbung in Netzstange führen. Netz spannen durch entsprechende Einklinkung der Kunststoffflasche am Netzhalter-Dorn.

GB Instructions for Assembling the net set

- ① Slide the tension pin through net.
- ② Place pin in designated slots.
- ③ Tie tension string to plastic tension tab.
- ④ Place tension string in slots over tension pin and net post. Adjust net tension by adjusting plastic tension tab.

F Instructions de montage pour l'ensemble poteaux-filet

- ① Passez la barre de tension à travers le filet.
- ② Fixez la barre de tension sur le poteau.
- ③ Prenez la corde et faites un noeud sur la patte de réglage.
- ④ Passez la corde dans la rainure de la barre de tension. Tendre le filet en fixant la patte de réglage sur la pointe du poteau.

NL Montage van de netpost

- ① Schuif de netstang door de zijkant van het net.
- ② Steek de netstang in uitsparingen van de nethouder.
- ③ Knoop het spandraad door kunststof lus.
- ④ Laat het spandraad via inkeping boven in de netstang lopen. Span het net door de kunststof lus op het haakje van de nethouder te klemmen.

E Montaje del portared

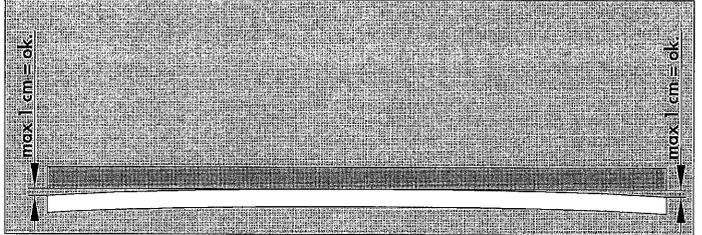

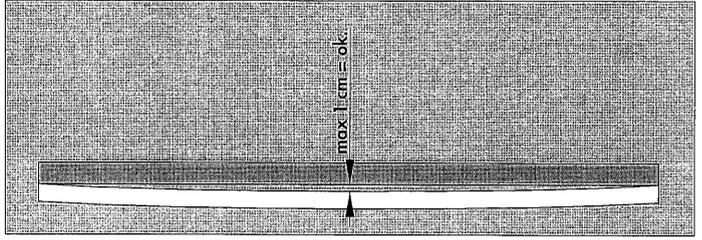

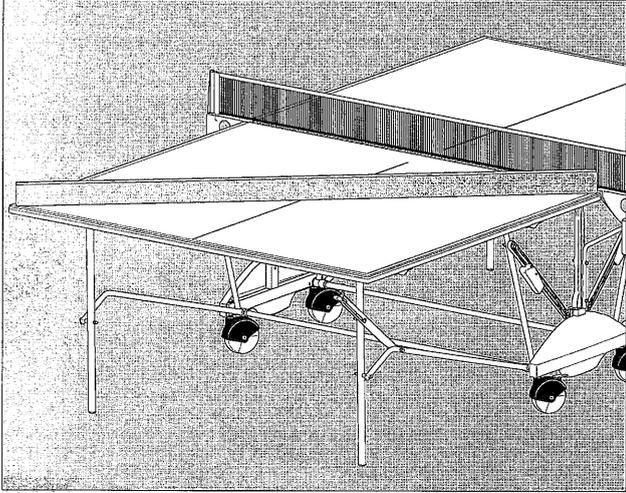

- ① Introducir la barra de la red por el borde lateral de la red.
- ② Insertar la barra de la red en las escotaduras del portared.
- ③ Anudar el hilo tensor al artefacto plástico.
- ④ Introducir el hilo tensor en la barra de la red por la muesca superior. Tensar la red encajando debidamente al artefacto plástico en el clavillo del portared.

I Montaggio dell'attacco della rete

- ① Spingere la stecca della rete attraverso il bordo laterale della rete.
- ② Introdurre la stecca della rete negli incavi dell'attacco della rete.
- ③ Annodare il fito tenditore e il passante di plastica.
- ④ Tirare il filo tenditore attraverso l'intaglio superiore nella stecca di rete. Tendere la rete scegliendo una posizione del passante di plastica sulla spina dell'attacco della rete.

PL Montaż uchwytów siatki

- ① Wsunąć pręty mocujące w boczne kieszenie siatki.
- ② Wetknąć pręty mocujące siatkę do nacięć w uchwytach siatki.
- ③ Związać sznurek naciągający z nakładką z tworzywa sztucznego.
- ④ Włożyć sznurek napinający do górnego nacięcia pręta mocującego siatkę. Naciągnąć siatkę przez zaczepienie nakładki z tworzywa sztucznego na trzpieniu uchwytu siatki.
