## DELIVERY

Replacing the 'old fashioned' concrete tables, the Cornilleau Park gives an extremely good level of play and can take quite a beating!

**Table size:** 274cm (l) x 152.5cm (w) x 76cm (h) (9' x 5' x 2'6")

**Recommended play area:** 5.1m x 3.3m (17' x 11')

**Standard weight:** 163kg (with optional sand trays: 400kg)

\*If purchasing sand trays you will need to provide 200kg of sand.

## Graffiti Resistant

## Fire Resistant

## Withstands 1600kg

## Ground Anchors

The standard table can be bolted to the ground. Optional anchors can be purchased which are either buried or concreted into place.

Recommended for use in unsupervised areas such as parks and public playgrounds. This table is a true heavyweight in all departments!

## Cornilleau 510 Pro

## Static Outdoor Table

By far the most popular outdoor static table. It has a strong galvanised steel frame and a very robust steel net.

This model is extremely popular with schools, colleges and holiday parks.
