Before starting to assemble the table tennis table, or using it for the first time, please read the assembly and operating instructions very carefully. They contain important advice for safety when using the table. Please keep these instructions for information, maintenance or ordering spare parts.

Assembly requires 2 adults during all stages.

All the tools required to complete the assembly are included with the table.

Assembly should be carried out on a clean, dry, soft floor. Please ensure there is nothing on the floor that could scratch the table tops.

Before commencing the assembly, check all parts against the parts list and make sure they are all present and correct.

Please follow the ABC references for the order of the assembly.

If there is a **text mark**, please read the explanation on page 7.

If there is a **part mark**, please read the information relating to it in the parts list on page 10.

Note on Safety

- The table tennis table should be used only for its intended purpose.
- All other uses are prohibited and may be dangerous. The manufacturer cannot be held liable for damage or injury caused by improper use of the table.
- Damaged or worn components may endanger your safety or shorten the lifespan of the table tennis table. Replace worn or damaged components immediately and remove the table from use until this has been done. Only use spare parts manufactured by KNIGHT.
- Incorrect repairs, alterations to the design (removal of original parts, addition of other components etc.) may endanger the safety of the user.
- Adult supervision is required. Instruct others using the table in its correct use. Please draw their attention to any potential source of danger, especially when setting up or dismantling the table.
- When setting up or dismantling the table, stay clear of its folding radius.
- When folded up, the table tennis table presents a large surface area to the wind. For this reason, ensure that it is stored in a sheltered position.
- The table tennis table should only be moved in the transport position as otherwise it may cause injury or damage.
- Depending on frequency of use, check all screws, bolts etc. regularly to ensure that they are in good condition.
- Caution: While assembling the product, keep out of the reach of children (choking hazard - contains small parts)

Handling the equipment

- Do not use the table tennis table until it has been fully and correctly assembled and checked.
- Set the table up on a level surface.
- Do not use corrosive or abrasive materials to clean the equipment. In most cases, a damp cloth is sufficient. Specialist cleaning products are available.
